

We offer a broad range of project expertise. We specialize in planning, designing, engineering, constructing, monitoring and maintaining data centers, computer rooms and server rooms that integrate, 'best-of-breed', critical infrastructure technologies. The result is an always available, scalable, redundant, fault-tolerant, manageable, and maintainable

**data center**

environment.

**Fauz Proftechnology Sdn. Bhd.**

is uniquely qualified to help businesses assess their data center

or

computer room

and support infrastructure risks, provide recommendations for improvement and offer accurate project cost estimating and guidance throughout implementation.

In today's hyper-competitive markets, where you measure network downtime in lost profits,

**Fauz Proftechnology Sdn. Bhd.**

designs solutions that protect against some of the leading causes of downtime, hardware damage, data loss, and decreased productivity.

**Fauz Proftechnology Sdn. Bhd.**

sets the standard for 'always' available solutions for

data centers, computer rooms,

server rooms, network closets, telecommunications rooms, network operations centers, and other mission critical facilities.
